

Daniel Ariel

Senior AI Consultant & Senior Frontend Developer

Berlin, Germany ariel.daniel@proton.me linkedin.com/in/danielariel danielariel.com

Profile	Senior AI Consultant and Senior Frontend Developer in Berlin, helping teams ship faster with composable architecture and AI-driven workflows. Builds robust web platforms with React, Next.js, TypeScript, and GraphQL on Contentful and Storyblok, with meticulous attention to CSS and semantic HTML. Introduces AI-assisted development workflows to engineering teams, integrates LLM-powered features into products, and advises stakeholders on where AI genuinely adds value.		
Experience	Senior AI Consultant & Senior Frontend Developer, BRANDUNG		Mar 2025 — Present
	- Back to full-time hands-on engineering — doubling down on technical depth in frontend and AI. - Introducing AI-assisted development workflows, integrating LLM-powered features, and building AI-supported content pipelines in composable CMS stacks. - Building enterprise web platforms with React, Next.js, TypeScript, and GraphQL.		
	Business Director, BRANDUNG		Jun 2023 — Mar 2025
	- Led a full business unit — clients, strategy, and delivery — while staying hands-on: roughly 50% of my time spent building, leading the unit’s developers as technical lead. - After the birth of my son, worked part-time for six months, then returned full-time as Senior Frontend Developer & Consultant — a deliberate choice of craft over the management track.		
	Frontend Web Developer, BRANDUNG		Oct 2018 — Jul 2023
	Nearly five years building and shipping web platforms for enterprise clients.		
	Full Stack Web Developer (Bootcamp), SPICED Academy		Feb 2018 — May 2018
	Intensive full-stack bootcamp across the JavaScript ecosystem.		
	Teaching Fellow, The Academic College of Tel-Aviv, Yaffo		Oct 2014 — Oct 2016
	Taught economics — the origin of the analytical, communication-first approach I bring to teams.		
Selected clients	Publishing: Bastei Lübbe, LYX E-commerce: MEDION, benuta Fashion: EDWIN Fitness: McFIT, JOHN REED, Gold’s Gym FMCG: duplo		
Talk	UX, Code, AI — 5 real lessons learned from using AI with Vercel v0 Masterclass · K5 Conference 2025
